The Granite squad will not be the best representative of High school football of Utah, but may be depended upon to make a creditable showing. The loss of Fuliback Ashton is a hard blow to the team, as he was among the best high school players in the state and could always be depended upon to make yards for his team whenever called upon to do so.

London, Nov. 22.—According to the handicappers and the critics generally, the best 2-year-old on the English turi is Lord Rosebery's Neil Gow, a chestnut colt by Marco out of Chelandry and, to judge by his public form, a horse of various moods and tempers. He has won a total of \$51,590, and this handsome sum was earned in four races, of course the cream of the 2-year-old season. Neil Gow missed some big ones, notably the Middle Park plate, on account of suffering from a cough, but it was noticed that when fit he showed a grand turn of speed and the ability to carry weight into the bargain. No better trial of a 2-year-old was ever seen on an English race course than that

the showed a grand turn of speed and the ability to carry weight into the bargain. No better trial of a 2-year-old was ever seen on an English race course than that of this same coit on the occasion if his last appearance of the season, which was the Imperial Produce stakes at Kemptow park, the race being worth \$12,795 and the distance six furlongs. Danny Maher had the leg up on Nell Gow, who had the steadier of 131 pounds on his back, and he was opposed by Sunningdale, carrying 112 pounds, and Santa Fina, with 129 pounds. Only three went to the post, but as far as Nell Gow was concerned no such sensational exhibition was ever seen on any race course. After the barrier sprang he whipped around and actually went a couple of strides away from the winning post. In a jiffy, however, Maher pulled him around in a half circle and headed him for home, but by that time the two others were 50 yards away and nobody would have blamed Maher had he abandoned the race then and there. It so happened, though, that the American jockey had a wonderful opinion of the colt and more than once has said that Neil Gow could fall down at the starting post and then get up and beat any other 2-year-old in training.

Before half the distance had been covehed the wayward favorite had pulled up within striking distance of the two others. Then Maher steadied him and gave him a chance to recover from the sprint that had been taken out of him. Approaching the distance, Maher gained nearly two lengths. Griggs, on Sunningdale, saw that Maher was closing on him and he calfed on his mount for a spurt, and there was such a game response that for a moment it looked as if Nell Gow was out of it. When within about 100 yards of the post, Sunningdale's speed seemed to leave him all at once and Maher, taking in the situation, set to work on Lord Rosebery's colt with grim determination and his efforts were magnificently seconded by the horse and he just snatched the victory in the last stride by a head.
